Heavy duty self-priming

## SAMSON PUMP

### SSM Range heavy duty self primer

Heavy Duty Design is for industrial applications with large bearings, shaft and large mechanical seal size.

Thick section Pump End components are designed for abrasion and corrosion resistance.

Mechanical Seal and Gland Pack shaft sealing are available to suit different applications.

Suction and Discharge Flanges are ISO dimensions. BS table E dimensions are available on request.

Open impeller design for solids and slurries handling.

Pump end material options :-

Cast Iron, SS304, SS316L, Ni-Resist, Bronze, Zinc Free Bronze.
